ESTABLISH GEORGE BLOW SCHOLARSHIP AT W. & M.

Made Possible by Gift of \$2,000 Made to Williamsburg Institution by Yorktown Man.

[Special to The Times-Dispatch.] WILLIAMSBURG, VA., April 19.—Establishment of the George Blow Scholarship at the College of William and Mary by a gift of \$2,000 from George F. Blow, of York Hall, Yorktown, Va., was announced here today. Both Colonel George Blow and General George F. Blow, grandfather and father, respectively, of Mr. Blow, were graduates of William and Mary, and the scholarship is a memorial to them.

The donation has been made as a gift to the Williamsburg Institution, and marks another in the growing series of scholarships being established at the college by the descendants of distinguished Virginians who attended the college and rendered great service to their State and country.

Colonel George Blow, who was born in Portsmouth, N.H., entered William and Mary in 1804, and took the then famous "law course." His marriage in 1807 to Elizabeth Waller, a granddaughter of President John Adams, of William and Mary, was the culmination of a college romance. Following the war of 1812, he was a magistrate for many years. He owned a number of plantations and valuable wharfs and land interests in Norfolk and Portsmouth.

General George Blow was born at "Power Hill" in 1813, and was graduated with the degree of B.A. in 1831 from William and Mary. After practicing law in Norfolk, he removed to Texas, and in 1841 was elected a member of Congress from the Republic of Texas. He later returned to Norfolk, was Commonwealth's attorney, and in 1850 was elected judge of the Virginia Circuit Court of Virginia from 1870 to 1888, and held the commission from the State of Virginia of brigadier-general. During the War Between the States he served as a lieutenant-colonel of the One Hundred and Forty-ninth Virginia Infantry, which rank he held until captured with Norfolk in 1862 and Paroled. He died in 1894.

The income from the George Blow scholarship is to be awarded at the discretion of the college faculty.

Smallpox in Lynchburg. LYNCHBURG, Va., April 19.—Another case of smallpox has been quarantined here by the health department. The patient is a negro. There are three cases here now.

Blackheads Go Quick BY THIS SIMPLE METHOD Blackheads—big ones or little ones—soft ones or hard ones—on any part of the body, go quick by a simple method that just dissolves them. To do this get about two ounces of calomel powder from your drugist—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly for a few seconds and wash off. You'll wonder where the blackheads have gone. The calomel powder and the wet water have just dissolved them. Pinching and squeezing blackheads only open the pores of the skin and leave them open and unsightly—unless the blackheads are big and soft they will not come out, while the simple application of calomel powder and water dissolves them right out, leaving the skin soft and the pores in their natural condition. You can get calomel powder at any drug store, and if you are troubled with these unsightly blemishes you should certainly try this simple method.—Adv.

HENNELLY AT HELM OF AMERICAN LEGION POST

Norfolk Man Chosen to Command James R. McConnell Post, No. 44.

[Special to The Times-Dispatch.] CHARLOTTESVILLE, VA., April 19.—James H. Hennelly, second lieutenant, Tenth Field Artillery, of Norfolk, winner of the Distinguished Service Cross and Croix de Guerre, has just been elected to command the James R. McConnell Post, No. 44, of the American Legion. The McConnell post is at the University of Virginia, and is one of the largest college posts in the country, now having 157 members.

Edward H. Anderson was elected vice-commander; Edward G. Penwell, war risk officer; Stange G. Blackford, sergeant-at-arms, and L. M. Blackford, adjutant and finance officer.

Hennelly received his Croix de Guerre from General Petain for extraordinary heroism while a liaison officer of the Tenth Field Artillery.

He was captured by the enemy while carrying a message back to the artillery. After being held in captivity for two months, he escaped, and, though wounded twice, reached the American lines and delivered his message.

The post is being done only in a small way.

The last financial statement made by the creditors' committee showed the liabilities owed \$4,887.75; that it lost \$2,622,592.38 in 1920, and that the actual deficit at that time being \$2,389,444.41. The company has on hand overalls and denim valued at \$1,600,000, which is sufficient, it is said, to provide overalls for every tenth man in the United States.

CLERGY INDORSES MOVE FOR MODEL SANATORIUM

Drive to Raise \$50,000 for Project in Danville Has Been Launched.

[Special to The Times-Dispatch.] DANVILLE, VA., April 19.—The Danville Ministerial Union held a meeting yesterday and endorsed the campaign to raise \$50,000 to build a modern sanatorium here. One hundred and fifty canvassers will begin work on the three-day effort, next Tuesday.

While R. L. Dibrell some years ago donated a site for the sanatorium near the city, and not far from Danville Military Academy, there is some opposition to placing the institution there. No site has been decided upon, but it is proposed to settle this by a referendum to the donors after the money is collected. One plan is to sell the property donated and to apply the proceeds to a new site.

Army tents have been erected on the site, and these will house the patients until the new sanatorium is built. The removal of the patients will take place next
